LAPPING DAY MOSPORT 2010

Winter's done.

What's on your Rite of Spring agenda? Fire up the beast, of course!

You get that done and start thinking... of different roads you can haunt; of glorious enticements for the better-half that coincidentally happen in Montreal when the GP is on; of your engine at three-quarter chat wrapping you in that heart-pounding thunder; of flying up the back straight at Mosport, cresting the hill and lining up for the late apex at Turn 8. You know, the sublime and fun bits of your summer life.

Are you up for another go-round at Mosport? It's happening June 17th this year and you're invited.
